

# PolyDrive PLUS

## High Speed, Ribbed Belts

Fenner® PolyDrive PLUS ribbed belts are an ideal solution for compact drives in household appliances and heavy machinery. The ribbed belts enable economic solutions even under difficult drive conditions, such as large transmission ratios, high belt speeds, small pulley diameters and back idler pulleys.

### Benefits

- > High belt speeds up to 60m/s (belt speeds above 40m/s require special pulley materials)
- > Designed for high transmission ratios
- > High power output
- > Low vibration, efficient belt
- > Long service life
- > Fully approved by all international standards
  - Geometry of each section complies to ISO 9982
  - Static conductive to ISO 1813
- > -30°C to +80°C temperature range
- > Suitable for reverse flexing and back idlers

### Size Reference
